

Data and Impact Intern

Mumbai

I. Background

Aangan works with children in dangerous situations like child trafficking, child marriage, hazardous work and abuse. Our prevention model targets "hot-spot" districts across the country where children are most at risk - either because these are known red-light areas, sites of hazardous child labor or are associated with harmful traditions like high rates of child marriage and girl child discrimination. Here we work with parents, children and government officials to build strong care and protection systems that keep children safe.

II. Key Duties and Responsibilities

Primary responsibilities include but are not limited to:

- Assist in data analysis to generate quantitative reports
- Identify data trends and develop insights
- Compile data from various data sources and assist in data collection
- Support app/data input training for field staff
- Compile and provide analysis on the impact of the work done by the organization

III. Knowledge and Technical Skills

- Technology-savvy
- Proficiency in working with large data sets.
- Comfortable in working with Microsoft office.

IV. Competencies and Abilities

- Communicating effectively: Simple and clear written and oral communication
- Critical Thinking & Problem solving
- Team Player
- Ability to multi-task
- Open to learning and using new products

Monthly Stipend will be provided to the interns

Minimum duration of internship will be two months

Location: preferably Mumbai
